

**Independent Auditor's Report**

To,

The members of **BOB FINANCIAL SOLUTIONS LIMITED**  
**Report on the Audit of the Financial Statements**

**Opinion**

We have audited the financial statements of **BOB FINANCIAL SOLUTIONS LIMITED** ("the Company"), which comprise the Balance Sheet as at 31st March 2021, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013("the Act") in the manner so required and give a true and fair view in conformity with accounting principles generally accepted in India, of the state of affairs (financial position) of the Company as at March 31, 2021, and its Loss (financial performance including other comprehensive income), the changes in equity and its Cash Flows for the year ended on that date.

**Basis for Opinion**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act, and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Emphasis of Matter**

We draw attention to Note 37 to the financial statement which explains that the extent to which COVID-19 pandemic will impact the Company's operations and financial results is dependent on future developments, which are highly uncertain.

Our opinion is not modified in respect of this matter.

**Information Other than the Financial Statements and Auditor's Report Thereon**

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report, but does not include the financial statements and our auditor's report thereon. The Board's Report including Annexures to Board's Report is expected to be made available to us after this auditor's report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

-: 2 :-

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### **Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements**

The Company's management and Board of Directors is responsible for the matters stated in section 134(5) of the Act, with respect to the preparation of these financial statements that give a true and fair view of the state of affairs (financial position), profit or loss (financial performance including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management and the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

-: 3 :-

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management and Board of Directors.
- Conclude on the appropriateness of management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

#### **Report on Other Legal and Regulatory Requirements**

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the Annexure "A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. The Comptroller and Auditor General of India has issued directions indicating the areas to be examined in terms of sub-section (5) of Section 143 of the Act, the compliances of which is set out in the Annexure "B".

-: 4 :-

3. As required by Section 143(3) of the Act, we report that:
- (a). We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - (b). In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
  - (c). The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the statement of changes in equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
  - (d). In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act.
  - (e). On the basis of the written representations received from the directors as on 31st March, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2021 from being appointed as a director in terms of Section 164(2) of the Act.
  - (f). With respect to the adequacy of the internal financial controls with reference to financial statement of the Company and the operating effectiveness of such controls, refer to our separate Report in Annexure "C".
  - (g). With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
    - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note 34 to the financial statements;
    - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
    - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

**Annexure “A” referred to in paragraph 1 under the heading “Report on Other Legal and Regulatory Requirements” of the Independent Auditors’ report of even date on the Financial Statements of BOB Financial Solutions Limited for the Year Ended 31<sup>st</sup> March 2021.**

On the basis of such checks as considered appropriate and in terms of the information and explanations given to us, we state as under. Matters specified in clauses (i)(c),(iii)(a)(b)(c),(vi),(ix),(xi),(xii) & (xv) of paragraph 3 of the Companies (Auditor’s Report) Order, 2016 do not apply to the Company. Accordingly no comments have been made on the matters not applicable to the company.

- ( i )
- ( a ) The company has maintained proper records showing full particulars including quantitative details and situation of fixed Assets.
- ( b ) As per the information and explanations given to us, fixed assets have been physically verified by the management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification and the same have been properly dealt with in the books of account.
- ( ii ) As per the information and explanations given to us, the inventory has been physically verified by the management during the year at reasonable intervals. In our opinion and according to the information and explanations given to us, the discrepancies noticed on verification between the physical stock and the book records were not material and the same have been properly dealt with in the books of account.
- ( iii ) As per information and explanations given to us, the Company has not granted any secured or unsecured loans to the companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013.
- ( iv ) In our opinion and according to the information and explanations given to us, in respect of Investments made during the year under review, the company has complied with the provisions of Section 186 of the Companies Act, 2013.
- ( v ) As per information and explanations given to us, the Company has not accepted any deposits from the public within the meaning of section 73 of the Companies Act 2013 and Rules made there under.
- ( vi )
- ( a ) As per the records of the Company and according to the information and explanations given to us, the Company is regular in depositing with appropriate authorities undisputed statutory dues including provident fund, employee’s state insurance, income tax, sales tax, service tax, custom duty, excise duty, value added tax, cess and other statutory dues, to the extent applicable to it.

According to the information and explanations given to us , there are no undisputed amounts payable in respect of provident fund, employee’s state insurance, income tax, sales tax, service tax, custom duty, excise duty, value added tax, cess and other material statutory dues were outstanding as at 31st March, 2021 for a period of more than 6 months from the date they became payable.

-: 2 :-

- (b) According to the information and explanations given to us and the records of the Company examined by us, there are no dues of income tax, sales tax, service tax, duty of customs and duty of excise duty, value added tax as at March 31, 2021 which have not been deposited on account of a dispute.
- (vii) Based on our audit procedures and on the basis of information and explanations given to us, we are of the opinion that the Company has not defaulted in payment of dues to its bank.
- (viii) As per information and explanations given by the management, no fraud by the company or any fraud on the Company by its officers or employees has been noticed or reported during the year under review.
- (ix) In our opinion and according to the information and explanations given to us and based on our examination of the records, the Company is in compliance with Section 177 and 188 of the Companies Act, 2013 where applicable, for all transactions with the related parties and the details of related party transactions have been disclosed in the financial statements as required by the applicable accounting standards.
- (x) According to the information and explanations give to us and based on our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. However, during the year company has issued following Fixed Rate, Unsecured, Rated, Taxable, Redeemable Listed Non- Convertible Debentures having face value of ₹. 10 Lakhs for each debenture and based on our examination of the records of the company, requirement of Section 42 of Companies Act, 2013 has been complied with and the amount raised has been used for the purpose for which the funds were raised.

Date of Issue of Offer letter	Rate of interest	Nature	Amount of debentures (In ₹.)
09-03-2021	7.65%	Subordinate Tier II	50,00,00,000/-

- (xi) The Company is required to be registered under section 45-IA of the Reserve Bank of India Act, 1934 and it has obtained certificate of registration dated 23<sup>rd</sup> October 1999.

**DATED: - May 11, 2021**

**Annexure “C” to the Independent Auditor’s Report Of Even Date on the Financial Statements of BOB Financial Solutions Limited.****Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”).**

We have audited the internal financial controls over financial reporting of **BOB Financial Solutions Limited** (“the Company”) as of March 31, 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

**Management’s Responsibility for Internal Financial Controls**

The Company’s management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal control with reference to the financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

**Auditors’ Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls with reference to the financial statements based on our audit.

We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls with reference to financial statements and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to the financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to the financial statements and their operating effectiveness.

Our audit of internal financial controls with reference to the financial statements included obtaining an understanding of internal financial controls with reference to the financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls with reference to the financial statements.

-: 2 :-

**Meaning of Internal Financial Controls with reference to the Financial Statements**

A company's internal financial control with reference to the financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to the financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

**Inherent Limitations of Internal Financial Controls with reference to the Financial Statements**

Because of the inherent limitations of internal financial controls with reference to the financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to the financial statements to future periods are subject to the risk that the internal financial control with reference to the financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion, to the best of our information and according to the explanations given to us and matter described in Emphasis of Matter paragraph above, the company has, in all material respects, an adequate internal financial controls with reference to the financial statements and such internal financial controls with reference to the financial statements were operating effectively as at March 31, 2021, based on the internal control with reference to the financial statements criteria established by the company considering the essential components of internal control stated in the "Guidance Note on Audit of Internal Financial Controls Over Financial Reporting" issued by the Institute of Chartered Accountants of India.

## BOB FINANCIAL SOLUTIONS LIMITED

### Accounting Policies

#### Note 1: Corporate Information

BOB Financial Solutions Limited is a wholly owned subsidiary of Bank of Baroda and a Non-Deposit accepting Systemically Important Non-Banking Finance Company ("NBFC-ND-SI"), holding a Certificate of Registration from the Reserve Bank of India ("RBI"). The Company is engaged in the business of issuing credit cards to consumers in India. It also provides support to Bank of Baroda by carrying out its merchant acquiring operations and manpower/consultancy services. Until December 2020, the Company was also supporting Bank of Baroda's overseas territory subsidiaries/sponsored RRB's for their Debit Cards operation, however all activities relating to these have been now transferred to respective overseas territory subsidiaries/ sponsored RRB's.

During the year ended March 2021, Company has issued 11 tranches of listed Commercial Papers which are listed on Bombay Stock Exchange (BSE). This was first ever listed issuance by the Company.

#### Note 2: Basis of preparation and presentation

##### a. Basis of preparation

The accompanying financial statements of the Company for the year ended March 31, 2021 have been prepared in accordance with Indian Accounting Standards ("Ind AS") notified by the Ministry of Corporate Affairs, Government of India under the Companies (Indian Accounting Standards) (amendments) Rules, 2016 and as amended from time to time. Any application guidance/ clarifications/ directions issued by RBI or other regulators are implemented as and when they are issued/ applicable.

The financial statements for the year ended 31st March 2021 are the first the Company has prepared under Ind AS. For all periods up to and including the year ended 31st March, 2020, the Company prepared its financial statements in accordance with generally accepted accounting principles in India ("Indian GAAP"), in compliance with all material aspects of the accounting standards notified under the section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP or previous GAAP), the provisions of the RBI as applicable to a NBFC-ND and accounting principles generally accepted in India. The financial statements for the year ended 31st March 2020 and the opening Balance Sheet as at 1st April, 2019 have been restated in accordance with Ind AS for comparative information. Reconciliations and explanations of the effect of the transition from Previous GAAP to Ind AS on the Company's Balance Sheet, Statement of Profit and Loss and Statement of Cash Flows are provided in note 43.

The preparation of financial statements in conformity with the Ind AS requires the management to make judgements, accounting estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods. Areas involving a higher degree of judgement or complexity, or areas where assumptions are

significant to the Company are discussed in Note 3 - Significant accounting judgements, estimates and assumptions.

**b. Basis of measurement**

The financial statements have been prepared in accordance with Indian Accounting standards (Ind AS) on the basis of Going Concern concept and under the historical cost convention on the accrual basis except for certain financial instruments that are measured at fair value at the end of each reporting period, and in accordance with the accounting policies set out below which are in conformity with Ind As. These policies have been consistently applied throughout the year.

**c. Functional and presentation currency**

The financial statements are presented in Indian Rupees (INR), which is the Company's functional and presentation currency. All amounts have been denominated in millions and rounded off to the nearest two decimals, except when otherwise indicated.

**d. Presentation of financial statements**

The financial statements of the Company are presented in order of liquidity and as per Division III of the Schedule III to of the Companies Act, 2013 applicable to NBFCs, as notified by the Ministry of Corporate Affairs (MCA). An analysis regarding recovery or settlement within 12 months after the reporting date (current) and more than 12 months after the reporting date (non-current) is presented in Note 32- Maturity analysis of assets and liabilities. Financial assets and financial liabilities are generally reported on a gross basis except when, there is an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event and the parties intend to settle on a net basis in the following circumstances:

- i. The normal course of business
- ii. The event of default
- iii. The event of insolvency or bankruptcy of the Company and/or its counterparties

**e. Statement of Compliance**

These financial statements of the Company have been prepared in accordance with Indian Accounting Standards as per the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under Section 133 of the Companies Act, 2013 and the other relevant provisions of the Act.

**Note 3: Significant accounting policies**

**3.1. Revenue from operations**

The Company's operating revenues are comprised principally of service revenues such as interest income on financial assets i.e. Overdue credit card outstanding/EMI balances, fee earned, target incentive offered by network partner, service charges from merchant establishment, rental income from machines deployed, income from consultancy services etc. Other fee and charges include cheque bounce charge, late fees, over limit fees etc.

Revenue is measured at fair value of the consideration received or receivable, taking into account contractually defined terms of payments and excluding taxes or duties collected on behalf of the

Government. Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made.

Revenue includes the following:

**a) Interest Income**

Interest income includes interest income on overdues from credit card holders and on EMI based advances.

Interest income and expense for all financial instruments, excluding those classified as held for trading or designated at fair value are recognised in 'Interest income' and 'Finance expense' in the statement of profit and loss using the effective interest rate method. In view of uncertainty of realization of income in case of credit impaired assets, such income is accounted for only on receipt basis. Recovery from impaired debts written off is recognised as income based on actual realisations from customers

**b) Income from fees and services**

The Company sells credit card membership to card holders, income earned from the provision of membership services is recognised as revenue over the period for which services are provided, net of reversals/ cancellations.

Revenue from interchange income is recognised when related transaction occurs, or service is rendered. Other service revenue consists of value-add services provided to the card holders. These other service revenues are recognised in the same period in which related transactions occur or services are rendered as revenue is accrued at the point of sale for these services.

**c) Service charges from merchant establishment**

All service charges in the form of commissions (MDR), support fee and POS rental related to merchant operations are recognised in the same period in which related transactions occurs or services are rendered as revenue is accrued at the point of sale for these services.

**d) Other Income**

All other income including income from debit card, consultancy services are recognised in the same period in which related transactions occurs or services rendered at fair value of consideration net off expected reversals/ cancellations as revenue is accrued at the point of sale. Income from debit card operations consist of income from overseas territory subsidiaries/sponsored RRB's of parent Company for supporting their debit Cards operations.

**e) Business Development Incentive**

The Company enters into long-term contracts with network partners for various programs designed to build payments volume, increase product acceptance. Revenue recognition is based on estimated performance and the terms of the business arrangements.

#### **f) Unidentified receipts/ old balances & Stale cheques**

The total unidentified receipts which could not be credited or adjusted in the customers' accounts for lack of complete & correct information is considered as liability in balance sheet. The estimated unidentified receipts/ old balances aged up to 3 years is written back as income on balance sheet date. The liability for stale cheques aged for more than three years is written back as income.

#### **g) Income from Investments**

Excess of sale price over purchase price of mutual fund units is recognised as income at the time of sale.

### **3.2 Expenditure**

Expenses are recognised on accrual basis.

a) The incremental cost of acquiring a customer is recognised in the profit and loss statement over the behavioural life of the customer

b) Borrowing cost consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Any expenditure which is directly attributable to borrowing is capitalized and amortised over the life of borrowing loan.

#### **3.2.1 Retirement and other employee benefits**

##### **Short term employee benefit**

All employee benefits including short term compensated absences and statutory bonus/ performance bonus/incentives payable wholly within twelve months of the end of the period in which the employees render the related services are recognised in respect of employee service upto the end of the reporting period and are measured at the amount expected to be paid when the liabilities are settled.

##### **Other long-term employee benefit obligations**

###### **a) Defined contribution schemes**

Retirement/ Employee benefits in the form of Provident Fund is considered as defined contribution plan. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognises contribution payable to the provident fund scheme as an expenditure, when an employee renders the related service. The Company's contributions to the above Plan are charged to the Statement of Profit and Loss.

###### **b) Defined Benefit schemes**

###### **Gratuity**

The Company provides for gratuity to all employees. The benefit is in the form of lump sum payments to vested employees on resignation, retirement, or death while in employment or on termination of employment of an amount equivalent to 15 days basic salary payable for each completed year of

service as required under 'The Payment of Gratuity Act, 1972'. Vesting occurs upon completion of five years of service.

The present value of the obligation under such defined benefit plan is determined based on actuarial valuation using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan, are based on the market yields of Government bonds as on the valuation date.

The liabilities with respect to Gratuity Plan are determined by actuarial valuation on projected unit credit method on the balance sheet date. The difference, if any, between the actuarial valuation of the gratuity of employees at the year end and the balance of funds is provided for as assets/ (liability) in the books. Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. the Company recognizes the following changes in the net defined benefit obligation under Employee benefit expense in statement of profit or loss:

Service costs comprising current service costs, past-service costs, gains and losses on curtailments and nonroutine settlements

Net interest expense or income remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the Balance Sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods."

#### Leave encashment

The employees of the Company are entitled to compensated absence and deferred compensation as per the policy of the Company, the liability in respect of which is provided, based on an actuarial valuation carried out by an independent actuary as at the year end. The actuarial valuation method used by the independent actuary for measuring the liability is the Projected Unit Credit Method.

Actuarial gains and losses comprise experience adjustments and the effects of changes in the actuarial assumptions are recognized immediately in the Statement of Profit and Loss in the year in which they arise.

Accumulated compensated absences, which are expected to be availed or encashed within 12 months from the end of the year are treated as short term employee benefits. Unutilised leave balance that accrues to employees as at the year-end is charged to the Statement of Profit and Loss on an undiscounted basis.

National pension scheme (NPS) The Company makes contributions to National Pension System (NPS), for qualifying employees. Under the Scheme, the Company is required to contribute a specified percentage of the payroll costs to NPS. The contributions payable to NPS by the Company are at rates specified in the rules of the schemes. The share of Companies contribution is charged to profit and loss account.

### 3.2.2 Other expenses

All Other expenses are recognized in the period they occur.

### 3.2.3 Taxes

Income tax expense comprises of current and deferred income tax. Current / Deferred tax is recognized in the Statement of Profit and Loss except to the extent it relates to a business combination or to an item which is recognized directly in equity or in other comprehensive income in which case the related income tax is also recognised accordingly. Deferred tax assets and deferred tax liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities; and the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority. The Company only off-sets its deferred tax assets against liabilities when there is both a legal right to offset and it is the Company's intention to settle on a net basis.

#### i) Current Taxes

Current tax is the amount of income taxes payable/ receivable in respect of taxable profit/ loss for a period. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible in accordance with applicable tax laws. Current tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from, or paid to, the taxation authorities. Interest income / expenses and penalties, if any, related to income tax are included in current tax expense. The tax rates and tax laws used to compute the amount are those that are enacted, or substantively enacted, by the end of reporting date in India where the Company operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

#### ii) Deferred Taxes

Deferred tax is provided on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

1. Where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
2. In respect of taxable temporary differences associated with investments in subsidiaries, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future

A deferred tax liability is recognised based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted, or substantively enacted, by the end

of the reporting period. Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits. Deferred tax assets are recognised only to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised except when the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss

The carrying amount of deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it becomes probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Current and deferred taxes are recognised as income tax benefits or expenses in the Statement of profit and loss except for tax related to the fair value re-measurement of financial assets classified through other comprehensive income, foreign exchange differences and the net movement on cash flow hedges, which are charged or credited to Other Comprehensive Income (OCI). These exceptions are subsequently reclassified from OCI to the statement of profit and loss together with the respective deferred loss or gain. The Company also recognises the tax consequences of payments and issuing costs, related to financial instruments that are classified as equity, directly in equity.

### 3.3. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial assets and financial liabilities are recognised when the entity becomes a party to the contractual provisions of the instruments.

#### 3.3.1 Initial recognition

Financial assets and financial liabilities are recognised in the Company's balance sheet when the Company becomes a party to the contractual provisions of the instrument.

### 3.3.2 Initial measurement

The classification of financial instruments at initial recognition depends on their contractual terms and the business model for managing the instruments. Financial instruments are initially measured at their fair value.

Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit and loss are recognised immediately in the statement of profit and loss.

A financial asset and a financial liability are offset and presented on net basis in the balance sheet when there is a current legally enforceable right to set-off the recognised amounts and it is intended to either settle on net basis or to realise the asset and settle the liability simultaneously.

### 3.3.3 Classification and Subsequent measurement of financial instruments

#### 1. Financial assets

The Company classifies its financial assets into the following measurement categories:

1. Financial assets to be measured at amortised cost
2. Financial assets to be measured at fair value through other comprehensive income
3. Financial assets to be measured at fair value through profit or loss account

#### i) Financial assets measured at amortised cost:

These financial assets comprise of bank balances, overdue credit card outstanding/EMI balances, trade receivables, and other financial assets.

Financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

#### ii) Financial assets measured at fair value through other comprehensive income:

Financial assets are measured at fair value through other comprehensive income where they have:

- a) contractual terms that give rise to cash flows on specified dates, that represent solely payments of principal and interest (SPPI) on the principal amount outstanding; and
- b) Are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets.

Gains and losses arising from changes in fair value are included in other comprehensive income within a separate component of equity. Impairment losses or reversals, interest revenue and foreign exchange gains and losses are recognised in profit and loss. Upon disposal, the cumulative gain or loss previously recognised in other comprehensive income (except for investment in equity shares) is reclassified from equity to the income statement.

iii) Financial assets measured at fair value through profit and loss:

Financial assets that do not meet the criteria for categorisation as at amortised cost or as FVOCI, are measured at FVTPL. Subsequent changes in fair value are recognised in the statement of profit and loss.

Items at fair value through profit or loss comprise:

- a) Investments (including equity shares) and stock in trade held for trading;
- b) Items specifically designated as fair value through profit or loss on initial recognition; and
- c) Debt instruments with contractual terms that do not represent solely payments of principal and interest.

Financial instruments held at fair value through profit or loss are initially recognised at fair value, with transaction costs recognised in the statement of profit and loss as incurred. Subsequently, they are measured at fair value and any gains or losses are recognised in the statement of profit and loss as they arise.

## 2. Financial Liabilities and Equity Instruments

Financial instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

### 2.1 Financial Liabilities

i) Debt securities and other borrowed funds

After initial measurement, debt issued, and other borrowed funds are subsequently measured at amortised cost. Amortised cost is calculated by taking into account any discount or premium on issue funds, and transaction costs that are an integral part of the EIR. (Effective Interest Rate)

ii) Undrawn credit limits on cards:

Undrawn credit limits on cards are commitments which the Company is required to pay on behalf of the customer based on pre-specified terms with the customer. Undrawn credit limits on cards commitments are in the scope of the ECL requirements.

### 2.2. Equity Instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company is recognised at the proceeds received, net of directly attributable transaction costs.

### 3.3.4 Reclassification of financial assets and liabilities

The Company does not reclassify its financial assets subsequent to their initial recognition, apart from the exceptional circumstances in which the Company acquires, disposes of, or terminates a business line. Financial liabilities are never reclassified.

### 3.3.5 Derecognition of financial assets and financial liabilities

#### 1. Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when the rights to receive cash flows from the financial asset have expired. The Company also derecognises the financial asset if it has both transferred the financial asset and the transfer qualifies for derecognition.

The Company transfers the financial asset if, and only if, either:

- i) The Company has transferred its contractual rights to receive cash flows from the financial asset, or
- ii) It retains the rights to the cash flows but has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement.

A transfer only qualifies for derecognition if either:

- i) The Company has transferred substantially all the risks and rewards of the asset, or
- ii) The Company has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

The Company considers control to be transferred if and only if, the transferee has the practical ability to sell the asset in its entirety to an unrelated third party and is able to exercise that ability unilaterally and without imposing additional restrictions on the transfer.

When the Company has neither transferred nor retained substantially all the risks and rewards and has retained control of the asset, the asset continues to be recognised only to the extent of the Company's continuing involvement, in which case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

#### 2. Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires.

### 3.3.6 Impairment of financial assets

#### **1. Overview of the ECL principles**

In accordance with Ind AS 109, the Company applies expected credit losses (ECL) model for measurement and recognition of impairment loss on the following financial asset and credit risk exposure,

- Financial assets measured at amortised cost
- Financial assets measured at fair value through other comprehensive income
- Undrawn credit limits

Equity instruments are not subject to impairment under Ind AS 109.

The ECL allowance is based on the credit losses expected to arise over the life of the asset (the lifetime expected credit loss), unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12 months' expected credit loss. Lifetime ECLs are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is the portion of Lifetime ECL that represent the ECLs that result from default events on a financial instrument that are possible within the 12 months after the reporting date.

Both Lifetime ECLs and 12-month ECLs are calculated on either an individual basis or a collective basis, depending on the nature of the underlying portfolio of financial instruments. The Company's policy for grouping financial assets measured on a collective basis is explained in Note 41.

The Company has established a policy to perform an assessment, at the end of each reporting period, of whether a financial instrument's credit risk has increased significantly since initial recognition, by considering the change in the risk of default occurring over the remaining life of the financial instrument.

Based on the above, the Company categorises its loans & advances into Stage 1, Stage 2 and Stage 3 as described below by comparing the credit risk of the financial instrument as at the reporting date, with its credit risk as at the date of initial recognition.

#### Stage 1: 12-months ECL

All exposures that are not credit impaired and where there has not been a significant increase in credit risk since initial recognition or that have low credit risk at the reporting date and that are not credit impaired upon origination are classified under this stage. Exposures with days past due (DPD) less than or equal to 30 days are classified as stage 1.

For these assets, 12-month ECL is recognized and interest revenue is calculated on the gross carrying amount of the asset (that is, without deduction for credit allowance).

### Stage 2: Lifetime ECL – not credit impaired

For credit exposures where there has been a significant increase in credit risk since initial recognition but that are not credit impaired, are classified under this stage.

Exposures with DPD greater than 30 days but less than or equal to 89 days are classified as stage 2. For these assets, lifetime ECL are recognized, but interest revenue is still calculated on the gross carrying amount of the asset.

### Stage 3: Lifetime ECL – credit impaired

Financial asset is assessed as credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of that asset have occurred.

For financial assets that have become credit impaired, a lifetime ECL is recognised on principal outstanding as at period end. Exposures with DPD equal to or more than 90 days are classified as stage 3.

## **2. The calculation of ECL**

The Company calculates ECL based on a probability weighted approach to measure the expected cash shortfalls. A cash shortfall is the difference between the cash flows that are due to an entity in accordance with the contract and the cash flows that the entity expects to receive.

The mechanics of the ECL calculations are outlined below and the key elements are, as follows:

**Probability of Default (PD)** - The Probability of Default is an estimate of the likelihood of default over a given time horizon. A default may only happen at a certain time over the assessed period, if the facility has not been previously derecognised and is still in the portfolio. The concept of PD is further explained in Note 41: Risk Management.

**Exposure at Default (EAD)** - The Exposure at Default is an estimate of the exposure at a future default date, considering expected changes in the exposure after the reporting date, including repayments of principal and interest, expected drawdowns, and accrued interest from missed payments. The concept of EAD is further explained in Note 41: Risk Management.

**Loss Given Default (LGD)** - The Loss Given Default is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, including from the realisation of any collateral. It is usually expressed as a percentage of the EAD. The concept of LGD is further explained in Note 41: Risk Management.

### Undrawn Credit limits

When estimating ECL for undrawn Credit limits, the Company estimates the expected portion of the credit card limits that will be drawn down over its expected life. The ECL is then based on the expected shortfalls in cash flows if the limit is drawn down.

### Forward Looking information

While estimating the expected credit losses, the Company reviews macro-economic developments occurring in the economy and market it operates in. On a periodic basis, the Company analyses if there is any relationship between key economic trends like GDP, unemployment rates, benchmark rates set by the Reserve Bank of India, inflation etc. with the estimate of PD, LGD determined by the Company based on its internal data. While the internal estimates of PD, LGD rates by the Company may not be always reflective of such relationships, temporary overlays, if any, are embedded in the methodology to reflect such macro-economic trends reasonably.

### Write-offs

Company is following the write off policy to undertake annual NPAs. The accounts, which have been classified as NPA for 180 days or more and for which no payment is received for one year, are written off as Bad Debts.

### Presentation of allowance for ECL in the balance sheet

Loss allowances for ECL are presented in the balance sheet as follows:

- a) Financial assets measured at amortised cost: as a deduction from the gross carrying amount of the assets;
- b) Where a financial instrument includes both a drawn and an undrawn component, the company presents a combined loss allowance for both components. The combined amount is presented as a deduction from the gross carrying amount of the drawn component. Any excess of the loss allowance over the gross amount of the drawn component is presented as a provision;

### **3.4. Determination of Fair Value**

On initial recognition, all the financial instruments are measured at fair value. For subsequent measurement, the Company measures certain categories of financial instruments (as explained in note 40) at fair value on each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- i) In the principal market for the asset or liability, or
- ii) In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques, as summarised below:

**Level 1 financial instruments** - Those where the inputs used in the valuation are unadjusted quoted prices from active markets for identical assets or liabilities that the Company has access to at the measurement date. The Company considers markets as active only if there are sufficient trading activities with regards to the volume and liquidity of the identical assets or liabilities and when there are binding and exercisable price quotes available on the balance sheet date.

**Level 2 financial instruments** - Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data available over the entire period of the instrument's life. Such inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical instruments in inactive markets and observable inputs other than quoted prices such as interest rates and yield curves, implied volatilities, and credit spreads. In addition, adjustments may be required for the condition or location of the asset or the extent to which it relates to items that are comparable to the valued instrument. However, if such adjustments are based on unobservable inputs which are significant to the entire measurement, the Company will classify the instruments as Level 3.

**Level 3 financial instruments** - Those that include one or more unobservable input that is significant to the measurement as whole.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

### 3.5 Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

### 3.6 Cash Flow Statement

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

### 3.7 Property, plant and equipment

#### Tangible Assets

Under the previous GAAP (Indian GAAP), all assets were carried in the balance sheet at cost, less accumulated depreciation and accumulated impairment losses, if any. The Company has considered the carrying amount as per previous GAAP as deemed cost in accordance with Ind AS 101 First Time adoption.

An item is recognised as an asset, if and only if, it is probable that the future economic benefits associated with the item will flow to the Company and its cost can be measured reliably. PPE are initially recognised at cost. The initial cost of PPE comprises its purchase price (including non-refundable duties and taxes but excluding any trade discounts and rebates), and any directly attributable cost of bringing the asset to its working condition and location for its intended use. Subsequent to initial recognition, PPE are stated at cost less accumulated depreciation and any impairment losses. When an item of PPE is replaced, then its carrying amount is de-recognised from the balance sheet and cost of the new item of PPE is recognised. The expenditures that are incurred after the item of PPE has been put to use, such as repairs and maintenance, are normally charged to the statement of profit and loss in the period in which such costs are incurred. However, in situations where the said expenditure can be measured reliably and is probable that future economic benefits associated with it will flow to the Company, it is included in the asset's carrying value or as a separate asset, as appropriate.

Depreciation is calculated on a straight-line basis & written down value basis using the rates arrived at based on the useful lives estimated by the management.

The estimated useful lives are, as follows:

Particulars	Useful lives estimated by the Management (Same as specified in Schedule II of the Companies Act, 2013)	Method of Depreciation
EDC	5 years	SLM
Computer Hardware	3 years	SLM
Computer Hardware SE	6 years	SLM
Computer Software	5 years	SLM
Furniture & Fixtures	10 years	WDV
Vehicles	8 years	WDV
Office Equipment	5 years	WDV
Plant & Machinery	15 years	SLM

Changes in the expected useful life are accounted for by changing the amortisation period or methodology, as appropriate, and treated as changes in accounting estimates.

#### Intangible Assets

An intangible asset is recognised only when its cost can be measured reliably, and it is probable that the expected future economic benefits that are attributable to it will flow to the Company. The

Company has considered the carrying amount as per previous GAAP as deemed cost in accordance with Ind AS 101 First Time adoption.

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets, excluding capitalised development costs, are not capitalised and expenditure is reflected in the statement of profit and loss in the year in which the expenditure is incurred.

The Costs of Intangible assets are amortized over the period of 5 years, on Straight Line Method

Intangible assets under development:

Projects under which intangible assets are not yet ready for their intended use are carried at cost, comprising direct cost, related incidental expenses.

Derecognition

An item of property, plant and equipment, intangible asset is de-recognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment, intangible asset is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

**3.8 Impairment of non-financial assets**

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, an estimate of the recoverable amount of the asset / cash generating unit (CGU) is made. Recoverable amount is the higher of an asset's or cash generating unit's fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. The smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets, is considered as a cash generating unit (CGU).

Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

An asset or CGU whose carrying value exceeds its recoverable amount is considered impaired and is written down to its recoverable amount. Assessment is also done at each balance sheet date as to whether there is any indication that an impairment loss recognised for an asset in prior accounting years may no longer exist or may have decreased.

Impairment losses of continuing operations are recognised in the statement of profit and loss.

### 3.9 Leases (As a lessee)

#### Identifying a lease

At the inception of the contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Company assesses whether:

- The contract involves the use of an identified asset, this may be specified explicitly or implicitly.
- The Company has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use, and
- The Company has right to direct the use of the asset.

#### Recognition of right of use asset

The Company recognises a right of use asset at the lease commencement date of lease and comprises of the initial lease liability amount, plus any indirect costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or site on which it is located, less any lease incentives received. The Company has adopted approach 2B as per Ind AS 116 where the right to use asset is recognised at same value at which liability is recognised.

#### Subsequent measurement of right of use asset

The right of use asset is subsequently amortized using the straight-line method from the commencement date to the earlier of the end of the useful life of the right of use asset or the end of the lease term, whichever is lesser. In addition, the right of use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurement of the lease liability.

#### Recognition of lease liability

The lease liability is initially measured at the present value of the lease payments net of cash lease incentives that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate.

#### Subsequent measurement of lease liability

Lease liability is measured at amortised cost using the effective interest method. The lease payments are apportioned between the finance charges and reduction of the lease liability using the incremental borrowing rate implicit in the lease to achieve a constant rate of interest on the remaining balance of the liability.

#### Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered to be of low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

### 3.10 Provisions and contingencies

A provision is recognised when the Company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as finance cost.

A contract is considered as onerous when the expected economic benefits to be derived by the Company from the contract are lower than the unavoidable cost of meeting its obligations under the contract.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements.

#### Provision for Bonus points redemption

The Company has a reward point program which allows card members to earn points based on spends through the cards that can be redeemed for cash. The liability for reward points outstanding as at the year-end and expected to be redeemed in the future is estimated based on an actuarial valuation.

**3.11 Inventories:** Inventory, if any, is valued at cost (arrived on FIFO basis) or net realizable value, whichever is lower.

The cost for inventory valuation includes the amount of tax or other such amount (other than those subsequently recoverable from the taxing authorities such as Input Tax Credit) incurred to bring the goods to the place of its location and condition as at the year end.

#### **3.12 Goods and services tax paid on acquisition of assets or on incurring expenses:**

Expenses and assets are recognised net of the goods and services tax / value added taxes paid, except:

a) When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable.

b) When receivables and payables are stated with the amount of tax included.

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

### 3.13 Earning Per Share

The Company reports basic and diluted earnings per share in accordance with Ind AS 33 on Earnings per share. Basic EPS is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting preference dividend and attributable taxes) by the weighted average number of equity shares outstanding during the year.

Diluted EPS is calculated by dividing the net profit attributable to equity holders of the Company by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on the conversion of all the dilutive potential ordinary shares into ordinary shares.

### 3.14 Contingencies and events occurring after the Balance Sheet date

Events occurring after the date of the Balance Sheet, which provide further evidence of conditions that existed at the Balance Sheet date or that arose subsequently, are considered up to the date of approval of accounts by the Board of Directors, where material.

### 3.15 Foreign currency transaction

Foreign currency transactions are accounted for at the rates prevailing on the date of the transaction. Exchange differences, if any arising out of transactions settled during the year are recognised in the Statement of Profit and Loss.

Monetary assets and liabilities denoted in foreign currencies as at the Balance Sheet date are translated at the closing exchange rates. Resultant exchange differences, if any, are recognised in the Statement of Profit and Loss and related assets and liabilities are accordingly restated in the Balance Sheet. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency at the Balance Sheet date are reported using exchange rates at the date of the transaction.

### 3.16 Statutory Reserve

In accordance with section 45-IC of the RBI Act, 1934, the Company creates a reserve fund and transfers therein a sum not less than twenty per cent of its net profit every year as disclosed in the Statement of Profit and loss before any dividend is declared.

### 3.17 Significant accounting judgements, estimates and assumptions

The preparation of the Company's financial statements in conformity with the Ind AS requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the accompanying disclosure and the disclosure of contingent liabilities, at the end of the reporting period. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised, and future periods are affected. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

In particular, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements is included in the following notes:

### **3.18 Critical judgements and key source of estimation**

#### **3.18.1 Critical judgements in applying accounting policies:**

##### **3.18.1.1 Business model assessment**

Classification and measurement of financial assets depends on the results of the solely payments of principal and interest (SPPI) and the business model test. The Company determines the business model at a level that reflects how Company's financial assets are managed together to achieve a particular business objective. This assessment includes judgment reflecting all relevant evidence including how the performance of the assets is evaluated and their performance is measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Company monitors financial assets measured at amortised cost that are derecognised prior to their maturity to understand the quantum, the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

##### **3.18.2 Key source of estimation uncertainty:**

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, as described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

##### **3.18.2.1 Effective Interest Rate (EIR) Method**

The Company's EIR methodology, as explained in Note 4.1, recognises interest income / expense using a rate of return that represents the best estimate of a constant rate of return over the expected behavioural life of loans taken and recognises the effect of potentially different interest rates at various stages and other characteristics of the product life cycle including prepayments and penalty interest and charges.

This estimation, by nature requires an element of judgement regarding the expected behaviour and life cycle of the instrument, as well expected changes to India's base rate and other fee income/expenses that are integral part of the instrument.

### 3.18.2.2 Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, the company estimates the asset's recoverable amount. An asset's recoverable amount is higher of an asset's fair value less cost of disposal and its value in use. Where the carrying amount exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

### 3.18.2.3 Provision and contingent liabilities

The Company operates in a regulatory and legal environment that, by nature, has a heightened element of litigation risk inherent to its operations. As a result, it is involved in various litigation, arbitration and regulatory investigations and proceedings in the ordinary course of its business.

When the Company can reliably measure the outflow of economic benefits in relation to a specific case and considers such outflows to be probable, the Company records a provision against the case. Where the probability of outflow is considered to be remote, or probable, but a reliable estimate cannot be made, a contingent liability is disclosed.

Given the subjectivity and uncertainty of determining the probability and amount of losses, the Company takes into account a number of factors including legal advice, the stage of the matter and historical evidence from similar incidents. Significant judgment is required to conclude on these estimates.

### 3.18.2.4 Leases- Estimating the Incremental Borrowing Rate

The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Company 'would have to pay', which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease. The Company estimates the IBR using observable inputs when available and is required to make certain entity-specific estimates.

### 3.18.2.5 Defined employee benefit assets and liabilities

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate; future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

### 3.18.2.6. Card life

Estimation of card life relies on behavioural life trend established basis past customer behaviour/ observed life cycle

**Notes to financial statements for the year ended 31st March 2021**  
(Figure in Rupees in millions, unless otherwise stated)

**Note 4: Cash and cash equivalents**

Particulars	As at 31 March 2021	As at 31 March 2020	As at 1 April 2019
Cash on hand	0.02	0.02	0.01
Balances with bank*	158.82	132.57	260.63
<b>Total</b>	<b>158.84</b>	<b>132.59</b>	<b>260.64</b>

The Company has taken bank overdraft, however, the same is not considered as a part of cash and cash equivalent for cash flow statement.

\*includes unspent amount of CSR of Rs. 2.18 mn lying in current account.

**Note 5: Trade Receivables**

Particulars	As at 31 March 2021	As at 31 March 2020	As at 1 April 2019
Receivable considered good - Unsecured			
To be realised within twelve months after reporting date:	309.32	379.21	484.69
To be realised after twelve months after reporting date:	54.59	66.92	153.06
<b>Total</b>	<b>363.91</b>	<b>446.13</b>	<b>637.75</b>

Trade receivable from related party	As at 31 March 2021	As at 31 March 2020	As at 1 April 2019
Bank of Baroda	326.14	381.21	512.31
Subsidiary of Bank of Baroda	0.26	0.50	4.87

Trade receivables are non-interest bearing and are generally on terms of 0 to 90 days.

Trade receivable includes majority receivables from holding company (i.e. Bank of Baroda) and the Company do not perceive any credit risk on that

No trade or other receivable are due from directors or other officers of the company either severally or jointly with any other person.

**Equity Shares**

The Company has only one class of equity shares having a par value of Rs 10 per share. Each holder of equity shares is entitled to one vote per share. The dividend, if any, is proposed by the Board of Directors and is subject to the approval of the shareholders in the ensuing Annual General Meeting. In the event of liquidation of Company, the holders of equity shares will be entitled to receive remaining assets of the Company, after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by the shareholders.

\* Represents actual outflow during the year.

**Notes to financial statements for the year ended 31st March 2021**  
(Figure in Rupees in millions, unless otherwise stated)

**Note 29: Earnings per share**

Basic earnings per share (EPS) is calculated by dividing the net profit for the year attributable to equity holders of Company by the weighted average number of equity shares outstanding during the year.

Diluted EPS is calculated by dividing the net profit attributable to equity holders of Company (after adjusting for interest on the convertible preference shares and interest on the convertible bond, in each case, net of tax) by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on the conversion of all the dilutive potential ordinary shares into ordinary shares.

Particulars	March 31, 2021	March 31, 2020
Following reflects the profit and share data used in EPS computations:		
<b>Basic/ Diluted</b>		
Weighted average number of equity shares for computation of Basic EPS	17,50,00,000.00	17,50,00,000.00
Net profit for calculation of basic EPS	(94.62)	(435.36)
<b>Basic earning per share (In Rs.)</b>	<b>(0.54)</b>	<b>(2.49)</b>

<b>Diluted</b>		
Weighted average number of equity shares for computation of Diluted EPS	17,50,00,000.00	17,50,00,000.00
Net profit for calculation of Diluted EPS	(94.62)	(435.36)
<b>Diluted earning per share (In Rs.)</b>	<b>(0.54)</b>	<b>(2.49)</b>

Nominal / Face Value of equity shares (In Rs.) 10.00 10.00

**Note 30: Income tax**

The components of income tax expense for the year ended March 31, 2021 and March 31, 2020 are:

Profit or loss section	March 31, 2021	March 31, 2020
<b>Current income tax:</b>		
Income tax - Current year	74.68	-
Deferred tax- Current year	(204.00)	(81.58)
<b>Income tax expense reported in the statement of profit or loss</b>	<b>(129.32)</b>	<b>(81.58)</b>

Other Comprehensive Income section	March 31, 2021	March 31, 2020
Deferred tax expense recognised in Other comprehensive income	(0.57)	1.99
<b>Income tax expense reported in the Other Comprehensive section</b>	<b>(0.57)</b>	<b>1.99</b>

Reconciliation of tax expense and the accounting profit	March 31, 2021	March 31, 2020
Profit/(loss) before tax from a continuing operations	(225.34)	(512.09)
Income tax rate (as on March 31, 2021)	29.12%	29.12%
Income tax expenses	(65.62)	-
<b>Tax effect of:</b>		
Others adjustments	140.29	-
deferred tax on timing difference	(204.00)	(81.58)
<b>Income tax expense recognised in the statement of profit and loss</b>	<b>(129.33)</b>	<b>(81.58)</b>

\* The Company may adopt taxation regim under section 115BAA under Income tax Act for year under review. The tax rate under 115BAA is at 25.168%

**Notes to financial statements for the year ended 31st March 2021**  
(Figure in Rupees in millions, unless otherwise stated)

**Note 31: Retirement benefit plan**

**i) Defined contribution plan**

The Company makes Contribution which are defined contributions plans, for qualifying employees. Under, the schemes, the company is required to contribute a specified percentage of the payroll costs to fund the benefits. The contributions payable to these plans by the Company are at rates specified in the rules of scheme.

During the year, the Company has recognised the following amounts in the Statement of profit and loss:

Particulars	Year ended 31 March 2021	Year ended 31 March 2020
Employers' Contribution to Employee's Provident Fund <sup>1</sup>	29.81	28.25
Employee State Insurance Corporations (ESIC)	0.70	0.60
Contribution to National Pension Scheme	2.27	1.03
Labour Welfare Fund	0.02	0.02
<b>Total</b>	<b>32.80</b>	<b>29.90</b>

<sup>1</sup> Provident fund is a defined contribution plan. The contribution towards provident fund has been deposited with Regional Provident Fund Commissioner and is charged to Statement of Profit and Loss.

**ii) Defined benefit plan**

The Company has a defined benefit gratuity plan (unfunded). The company's defined benefit gratuity plan is a final salary plan for employees, which requires contributions to be made to a separately administered fund. The gratuity plan is governed by the Payment of Gratuity Act, 1972. Under the act, employee who has completed five years of service is entitled to specific benefit. The level of benefits provided depends on the member's length of service and last drawn salary.

Through its defined benefit plans the Company is exposed to a number of risks, the most significant of which are detailed below:

**a) Change in bond yields -**

A decrease in government bond yields will increase plan liabilities.

**b) Inflation risk -**

The present value of some of the defined benefit plan obligations are calculated with reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

**c) Life expectancy -**

The present value of defined benefit plan obligation is calculated by reference to the best estimate of the mortality of plan participants, both during and after the employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

The following tables summarise the components of net benefit expense recognised in the statement of profit or loss and the funded status and amounts recognised in the balance sheet for the respective plans:

**Table showing change in the present value of projected benefit obligation**

Particulars	As at March 31, 2021	As at March 31, 2020
<b>Change in benefit obligations</b>		
Present value of benefit obligation at the beginning of the year	36.93	23.71
Interest on defined benefit obligation	2.11	1.79
Current Service cost	6.79	5.29
Liability Transferred In/Acquisition (Benefit Paid From the Fund)	-	(0.32)
Actuarial (Gains) on Obligations - Due to Change in Demographic Assumptions	-	3.82

Income from Consultancy	114.48	117.51
Business development incentives	28.19	15.09
<b>Total</b>	<b>2,427.49</b>	<b>2,304.91</b>

**Disaggregation of Revenue:**

The Company is engaged in the business of issuing credit cards to consumers in India. It also provides support to Bank of Baroda by carrying out its merchant acquiring operations and manpower/consultancy services. The segment wise bifurcation is provided in note no 38.

**Receivable from contract with customers and contract balance**

Particulars	March 31, 2021	March 31, 2020
Trade receivables	363.91	446.13
<b>Total</b>	<b>363.91</b>	<b>446.13</b>
To be realised within twelve months after reporting date:	309.32	379.21
To be realised after twelve months after reporting date:	54.59	66.92
Trade receivables include unbilled revenue	79.69	310.27

**Contract Cost**

Cost of acquiring a customer is the incremental cost of obtaining the contract with customer, which is recognised in the profit and loss statement over the behavioural life of the customer i.e 5 years.

Particulars	March 31, 2021	March 31, 2020
Opening Balance	152.09	49.19
Capitalised during the year	114.10	130.95
Amortised during the year	48.88	28.06
Closing balance	<b>217.30</b>	<b>152.09</b>
To be realised within twelve months after reporting date:	58.62	36.33
To be realised after twelve months after reporting date:	158.68	115.76

The unamortised contract cost are disclosed in note:13 to financial statements.

**Contract liabilities**

The company sell credit card to card holders, income earned from customer as card fees is recognised as revenue over the period of 12 months.

Particulars	March 31, 2021	March 31, 2020
Opening Balance	24.16	11.64
Capitalised during the year	116.14	49.68
Amortised during the year	77.72	37.17
Closing balance	<b>62.57</b>	<b>24.16</b>
To be realised within twelve months after reporting date:	<b>62.57</b>	<b>24.16</b>
To be realised after twelve months after reporting date:	Nil	Nil

The Contract Liabilities are disclosed in note:19 to financial statements.

**Note 34: Contingent liabilities, commitments**

In the ordinary course of business, the Company faces claims and assertions by various parties. The Company assesses such claims and assertions and monitors the legal environment on an ongoing basis, with the assistance of external legal counsel, wherever necessary. The Company records a liability for any claims where a potential loss is probable and capable of being estimated and discloses such matters in its financial statements, if material. For potential losses that are considered possible, but not probable, the Company provides disclosure in the financial statements but does not record a liability in its accounts unless the loss becomes probable. The Company believes that the outcome of these proceedings will not have a materially adverse effect on the Company's financial position and results of operations.

**Contingent Liabilities not provided for in respect of:**

Particulars	March 31, 2021	March 31, 2020	April 1, 2019
Income tax matters - appeals by Company	Nil	0.77	6.03
Claim filed against the Company in consumer court	3.63	0.23	0.88
<b>Total</b>	<b>3.63</b>	<b>0.99</b>	<b>6.91</b>

**Note:**

- Related parties have been identified on the basis of the declaration received by the management and other records available.
- Provisions for gratuity, compensated absences and other long term service benefits are made for the Company as a whole and the amounts pertaining to the key managerial personnel are not specifically identified and hence are not included above.
- The Company enters into transactions, arrangements and agreements involving related parties in the ordinary course of business under the same commercial and market terms, interest and commission rates that apply to non-related parties.

**Notes to financial statements for the year ended 31st March 2021**  
(Figure in Rupees in millions, unless otherwise stated)

**Note 36: Capital**

The Company maintains an actively managed capital base to cover risks inherent in the business and is meeting the capital adequacy requirements of the local banking supervisor, Reserve Bank of India (RBI) of India. The adequacy of the Company's capital is monitored using, among other measures, the regulations issued by RBI. Company has complied in full with all its externally imposed capital requirements over the reported period.

**Capital Management**

The primary objectives of the Company's capital management policy are to ensure that the Company complies with externally imposed capital requirements and maintains strong credit ratings and healthy capital ratios in order to support its business and to maximise shareholder value.

The Company manages its capital structure and makes adjustments to it according to changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividend payment to shareholders, return capital to shareholders or issue capital securities. No changes have been made to the objectives, policies and processes from the previous years. However, they are under constant review by the Board.

Particulars	As at 31 March 2021	As at 31 March 2020	As at 1 April 2019
<b>Regulatory capital</b>			
Common Equity Tier1 (CET1) capital	1,150.70	1,590.24	2,258.55
Other Tier 2 capital instruments	611.44	65.72	50.92
<b>Total capital</b>	<b>1,762.14</b>	<b>1,655.97</b>	<b>2,309.47</b>
<b>Risk weighted assets</b>			
i) CRAR (%) / CET1 capital ratio	19.61%	31.50%	56.69%
ii) CRAR - Tier I capital (%)	12.80%	30.25%	55.44%
iii) CRAR - Tier II Capital (%)	6.80%	1.25%	1.25%

Regulatory capital consists of CET 1 capital, which comprises share capital, share premium, retained earnings including current year profit less accrued dividends. Certain adjustments are made to Ind AS-based results and reserves, as prescribed by the Reserve Bank of India. The other component of regulatory capital is other Tier 2 Capital Instruments.

**Notes to financial statements for the year ended 31st March 2021**  
(Figure in Rupees in millions, unless otherwise stated)

**Note 37 : Events after reporting date**

The impact of COVID-19, including changes in customer behaviour and pandemic fears, as well as restrictions on business and individual activities, has led to volatility in Indian financial markets and a decrease in local economic activities. The slowdown during the year led to a decrease in the use of credit cards by customers and the efficiency in collection efforts. This may lead to a rise in the number of customer defaults and consequently an increase in provisions there against. The extent to which the COVID-19 pandemic, including the current "second wave" that has significantly increased the number of cases in India, will continue to impact the Company's results will depend on ongoing as well as future developments, which are highly uncertain, including, among other things, any new information concerning the severity of the COVID-19 pandemic and any action to contain its spread or mitigate its impact whether government-mandated or elected by us.

In anticipation of the expected economic fallout, we have brought our provision more in line with expected impact of the macro-economic situation relevant to our customers and business. We are closely monitoring our asset quality. We are also identifying segments of potential stress and taking suitable actions to manage our exposures. These segments and strategies are being actively monitored and will be refined as more data becomes available. We believe that our current provisions taken against the impacted portfolio are reasonable and sufficient to absorb any additional COVID related stress at this point in time. Given the dynamic nature of the pandemic situation, these estimates are subject to uncertainty and may be affected by the severity and duration of the pandemic. In the event the impacts are more severe or prolonged than anticipated, this will have a corresponding impact on the carrying value of financial assets, the financial position and performance of the Company and we may be required to hold additional provisions under such scenario

**Note 38: Segment reporting**

The Management has reviewed and reconsidered the requirements of presenting segment information and accordingly identified Business segment as the Primary segment for disclosure for the current year. The Company operations are in India and hence there is no segment reporting by geographical segment. Segment Information has been prepared in conformity with the Ind AS 108 on 'segment reporting'.

**Note 39: Leases**

The Company's lease asset class primarily consist of leases for office premises. Generally, the Company is restricted from assigning and subleasing the leased assets. The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option).

Set out below are the carrying amounts of right-of-use assets recognised and the movements during the year:

Office premises	March 31, 2021	March 31, 2020
Opening net carrying balance	65.44	105.34
Additions	88.67	-
Deletion	(44.36)	-
Depreciation	(28.47)	(39.90)
<b>Closing net carrying balance</b>	<b>81.28</b>	<b>65.44</b>

Set out below are the carrying amounts of lease liabilities (included under Other financial liability) and the movements during the year:

Particulars	March 31, 2021	March 31, 2020
Opening Balance	67.97	104.17
Additions	88.67	-
Deletions	(48.97)	-
Accretion of interest	7.34	7.49
Payments	(33.81)	(43.69)
<b>Closing Balance</b>	<b>81.20</b>	<b>67.97</b>

**Maturity analysis of undiscounted lease liability**

The table below provides details regarding the contractual maturities of lease liabilities as at March 31, 2021 on an undiscounted basis:

Particulars	March 31, 2021	March 31, 2020	April 1, 2019
Not later than one year	14.68	20.44	36.70
later than one year not later than five year	66.52	47.53	67.47
Later than five year	-	-	-
<b>Total undiscounted lease liabilities</b>	<b>81.20</b>	<b>67.97</b>	<b>104.17</b>

Amounts recognized in the Statement of Profit and Loss	March 31, 2021	March 31, 2020
Depreciation expense		
Depreciation on right of use assets	28.47	39.90
Other expenses		
Short-term lease rent expense	35.18	19.55
Finance cost		
Interest expense on lease liability	7.34	7.49

**Note 41: Risk Management**

**Introduction and Risk Profile**

Company started its operations in 1994 with Credit card issuance. This process of risk management is critical to company's vision, and holds very high importance in the board governance. The company is exposed to credit risk, liquidity risk and market risk. It is also subject to various operating and business risks.

**(a) Risk management structure**

Credit risk is the risk of incurring financial loss to the company due to the default of company's customers in fulfilling their contractual obligations to the company. The credit risk management team reports to Chief Risk Officer. The Chief Risk Officer meets with the Audit and Risk Management Committee (ARMC) independently every quarter. Credit risk arises mainly from loans and advances to retail customers arising on account of facilitating credit card loans to customers

**Credit risk management approach**

Managing credit risk is the most important part of total risk management exercise. The Company's credit risk subfunction headed by Chief Risk Officer (CRO) is responsible for the key policies and processes for managing credit risk, which include formulating credit policies and risk rating frameworks, guiding the Company's appetite for credit risk exposures, undertaking independent reviews and objective assessment of credit risk, and monitoring performance and management of portfolios. The principal objectives being maintaining a strong culture of responsible lending across the Company, and robust risk policies and control frameworks, implementing and continually re-evaluating our risk appetite and ensuring there is adequate monitoring of credit risks, their costs and their mitigation. The basic credit risk management would cover two key areas, viz., (a) customer selection & (b) customer management. These are governed by Board Approved Credit Policy and Collections Policy which is reviewed on a regular basis. Organization has worked on strengthening the credit decision process with pre-qualification of the probable customers and scientific selection based on liability score model developed internally for appropriate customer selection and targeting. We have made multiple interventions throughout the year to strengthen the acquisition quality. This has led to improvement in approval rates in the current financial year. The changes include discontinuation of programs, revision in MCP, scorecard level changes etc. Credit limit assignment is a function of income capacity and risk assessment done for the individual applicant. Risk assessment is done based on internal scorecards that are based on applicant bureau history, application profile and demographic variables. Further, we assess the credit history indicators as determined by independent 3rd party agencies – external rating, bureau reporting, RBI negative list and asset classification letters from bankers.

Post acquisition portfolio delinquency management is carried out through Account Management System, which includes:

- Fraud detection
- Portfolio quality review
- Credit line increase
- Cross sell on cards
- Behavior scorecard; and
- Collection score card etc.

The Company deploys right technology and resources to ensure the same. The Company has deployed practices/analytics such as the following to monitor and mitigate credit. Delinquency metrics have been developed and constantly evaluated & portfolio interventions leading to better quality of incoming new accounts Strong collection practices driving consistent improvements in collection metrics & leveraging the latest credit bureau information to improve recoveries from older pools Strong use of analytics in measuring and monitoring credit risk are used such as; Scorecards assessing default risk & payment propensity Predictive Business Analytics Models

The key elements in calculation of ECL are as follows:

**Stage 1: 12-months ECL**

All exposures that are not credit impaired and where there has not been a significant increase in credit risk since initial recognition or that have low credit risk at the reporting date and that are not credit impaired upon origination are classified under this stage. Exposures with days past due (DPD) less than or equal to 30 days are classified as stage 1.

For these assets, 12-month ECL is recognized and interest revenue is calculated on the gross carrying amount of the asset (that is, without deduction for credit allowance).

**Stage 2: Lifetime ECL – not credit impaired**

For credit exposures where there has been a significant increase in credit risk since initial recognition but that are not credit impaired, are classified under this stage.

Exposures with DPD greater than 30 days but less than or equal to 89 days are classified as stage 2. For these assets, lifetime ECL are recognized, but interest revenue is still calculated on the gross carrying amount of the asset.

**Stage 3: Lifetime ECL – credit impaired**

Financial asset is assessed as credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of that asset have occurred.

For financial assets that have become credit impaired, a lifetime ECL is recognised on principal outstanding as at period end. Exposures with DPD equal to or more than 90 days are classified as stage 3.

The table below shows the credit quality and the exposure to credit risk based on the year-end stage classification. The amounts presented are gross of impairment allowances.

As on 31st March 2021.

Category	Assets category	Gross Carrying Amount	Expected Credit Loss	Net Carrying Amount	PD
Stage 1	Credit card	7,693.81	596.97	7,096.85	0.50% to 6.77%
Stage 2	Credit card	427.50	94.05	333.45	2.45% to 29.56%
Stage 3	Credit card	653.53	653.53	-	100%
<b>Total</b>		<b>8,774.84</b>	<b>1,344.55</b>	<b>7,430.30</b>

(b) Liquidity risk and funding management

Liquidity risk is the current and prospective risk arising out of an inability to meet financial commitments as they fall due, through available cash flows or through the sale of assets at fair market value. It includes both, the risk of unexpected increases in the cost of funding an asset portfolio at appropriate maturities and the risk of being unable to liquidate a position in a timely manner at a reasonable price.

The Company manages liquidity risk by maintaining sufficient cash and marketable securities and by having access to funding through an adequate amount of committed credit lines. Given the need to fund diverse products, the Company maintains flexibility in funding by maintaining availability under committed credit lines to meet obligations when due. Management regularly monitors the position of cash and cash equivalents vis-à-vis projections. Assessment of maturity profiles of financial assets and financial liabilities including debt financing plans and maintenance of Balance Sheet liquidity ratios are considered while reviewing the liquidity position.

We manage liquidity risk in accordance with our Asset Liability Management Policy. This policy is framed as per the current regulatory guidelines and is approved by the Board of Directors. The Asset Liability Management Policy is reviewed periodically to incorporate changes as required by regulatory stipulation or to realign the policy with changes in the economic landscape. The Asset Liability Committee (ALCO) of the Company formulates and reviews strategies and provides guidance for management of liquidity risk within the framework laid out in the Asset Liability Management Policy.

The table below summarises the maturity profile of the undiscounted cash flows of the Company's financial assets

(c) Market risk

The Company is exposed to interest rate risk as it has assets and liabilities based on floating interest rates as well. The Company has an approved Assets and Liability Management policy which empowers the Assets and Liability Management Committee (ALCO) to assess the interest rate risk run by it and provide appropriate guidelines to the Treasury to manage the risk. The ALCO reviews the interest risk on periodic basis and decides on the assets profile and the appropriate funding mix. The ALCO reviews the interest rate gap statement and the interest rate sensitivity analysis.

Financial Assets	As March 31, 2021	As March 31, 2020	As April 1, 2019
Fixed-rate instruments	7,430.30	3,982.16	2,579.57
Floating-rate instruments	-	-	-
<b>total</b>	<b>7,430.30</b>	<b>3,982.16</b>	<b>2,579.57</b>

Financial Liabilities	As March 31, 2021	As March 31, 2020	As April 1, 2019
Fixed-rate instruments	499.11	-	-
Floating-rate instruments	6,068.63	2,735.57	995.19
<b>total</b>	<b>6,567.73</b>	<b>2,735.57</b>	<b>995.19</b>

Fair value sensitivity analysis for floating-rate instruments.

The sensitivity analysis below have been determined based on exposure to the interest rates for financial instruments at the end of the reporting period and the stipulated change taking place at the beginning of the financial year and held constant through out the reporting period in case of instruments that have floating rates. If the interest rate had been 100 basis points higher or lower and all other variables were constant, the Company profit before tax would have changed by the following.

Particulars	As March 31, 2021		As March 31, 2020	
	100 bps higher	100 bps lower	100 bps higher	100 bps lower
Impact on profit	(19.70)	19.70	(45.10)	45.10

(d) Operational risk

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people and system or from external events. The Company focuses on management and control of operational risks through a comprehensive system of internal controls and monitoring performance of each function against defined thresholds.

Operational risk management comprises identification and assessment of risk and controls, new products and process approval framework, measurement through operational risk incidents, monitoring through key risk indicators and mitigation through process and control enhancement.

Note 42: Expenditure in foreign currency

<b>Expenditure in foreign currency</b>		
Scheme charges	263.96	181.92
<b>Total</b>	<b>263.96</b>	<b>181.92</b>

**Note 43: First-time adoption of Ind AS**

**43.1 Overall Principle:**

These financial statements, for the year ended March 31, 2021, are the first annual financial statements the Company has prepared in accordance with Ind AS. For periods up to and including the year ended March 31, 2020, the Company prepared its financial statements in accordance with accounting standards notified under section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP or previous GAAP).

Accordingly, the Company has prepared financial statements which comply with Ind AS applicable for periods ending on March 31, 2021, together with the comparative period data as at and for the year ended March 31, 2020, as described in the summary of significant accounting policies. In preparing these financial statements, the Company's opening balance sheet was prepared as at April 01, 2019, the Company's date of transition to Ind AS. This note explains the principal adjustments made by the Company in restating its Indian GAAP financial statements, including the balance sheet as at April 01, 2019 and the financial statements as at and for the year ended March 31, 2020.

**43.2 Mandatory exceptions and optional exemptions availed**

Set out below are the applicable Ind AS 101 mandatory exceptions and optional exemptions applied in the transition from previous GAAP to Ind AS, which were considered to be material or significant by the Company:

**Mandatory Exceptions:**

**1) Use of Estimates**

Ind AS 101 prescribes that an entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error. The estimates at April 01, 2019 and March 31, 2020 are consistent with those made for the same dates in accordance with Indian GAAP apart from the following adjustments, where application of Indian GAAP did not require estimation:

- Fair valuation of financial instruments carried at FVTPL
- Impairment of financial assets based on the Expected Credit Loss (ECL) model
- Determination of present value for financial instruments carried at amortised cost

The estimates used by the Company to present these amounts in accordance with Ind AS reflect conditions at April 01, 2019 the date of transition to Ind AS, and as of March 31, 2020.

**2) Classification and measurement of financial assets**

The Company has classified the financial assets in accordance with Ind AS 109 on the basis of facts and circumstances that exist at the date of transition to Ind AS.

**3) Impairment of financial assets**

The Company has applied the exception related impairment of financial assets given in Ind AS 101. It has used reasonable and supportable information that is available without undue cost or effort to determine the credit risk at the date that financial assets were initially recognized and compared that to the credit risk as at April 01, 2019.

**Optional Exemptions availed:**

**1) Deemed cost for property, plant and equipment and intangible assets**

The Company has elected to measure property, plant and equipment, and intangible assets at its Previous GAAP carrying amount and use that Previous GAAP carrying amount as its deemed cost at the date of transition to Ind AS.

**2) Leases**

Ind AS 116 requires an entity to assess whether a contract or arrangement contains a lease. In accordance with Ind AS 116, this assessment should be carried out at the inception of the contract or arrangement. Ind AS 101 provides an option to make this assessment on the basis of facts and circumstances existing at the date of transition to Ind AS, except where the effect is expected to be material.

The Company has elected to apply this exemption for such contracts / arrangements.

**43.3 Reconciliations between Ind AS and previous GAAP:**

Ind AS 101 requires an entity to reconcile equity, total comprehensive income and cash flows for previous periods. The following tables represent the reconciliations from previous GAAP to Ind AS.

Particulars	Notes	As at March 31, 2020	As at April 01, 2019
Share Capital		1,750.00	1,750.00
Reserves & Surplus:		-	-

<b>Profit and loss for the year as per IND AS</b>		<b>(430.51)</b>
Other comprehensive income/(loss) for the period		(4.85)
<b>Total comprehensive income/ (loss) as reported under IND AS</b>		<b>(435.36)</b>

Footnotes to the reconciliation of equity as at April 01, 2019 and March 31, 2020 and profit or loss for the year ended March 31, 2020.

**1) Effective interest rate (EIR) method -**

a) **EIR on Loans:** Under previous GAAP, transaction costs on loan origination and the processing fees charged to customers were recognised upfront while under Ind AS, such fees and costs are included in the initial recognition amount of financial asset and recognised as interest income using the effective interest method. The unamortised portion is adjusted in retained earnings as at the date of transition and subsequently in the Statement of Profit and Loss for the year ended 31 March 2020.

b) **EIR on Borrowings:** Under previous GAAP, transaction costs incurred on borrowings was charged to statement of profit and loss upfront while under Ind AS, such costs are included in the initial recognition amount of financial asset and recognised as interest income using the effective interest method. The unamortised portion is adjusted in retained earnings as at the date of transition and subsequently in the Statement of Profit and Loss for the year ended 31 March 2020.

**2) Expected credit loss (ECL) -**

a) **Funded Exposure -** Under previous GAAP, loan losses and provisions were computed basis RBI guidelines and Management estimations. Under Ind AS, the same is required to be computed as per the impairment principles laid out in Ind AS 109 which prescribes the expected credit loss model (ECL model) for the same. Accordingly, the difference between loan losses and provisions as computed under previous GAAP and as computed under Ind AS is adjusted in retained earnings as at the date of transition and subsequently in the Statement of Profit and Loss for the year ended 31 March 2020.

b) **Non funded exposure -** Under previous GAAP, no provision is recognised on loans commitments and financial guarantees. However, under Ind AS impairment provision is recognised on undrawn commitment based on expected credit loss model prescribed under Ind AS 109. The differential impact has been adjusted in retained earning as at date of transition and subsequently in the statement of Profit and loss.

55/63

*Jg*

- 3) **Trade and other receivables-** Under previous GAAP, the Company has created provision for impairment of receivables in respect of specific amount for incurred losses. Under Ind AS, impairment allowance for trade and other receivables also has been determined based on Expected Loss model (ECL).
- 4) **Security deposits -** Under Indian GAAP, interest free security deposits given to landlords for premises rented, was recorded as an asset, while rent was booked as an expense as per the rental agreement. Under Ind AS, interest free security deposit is required to be measured at fair value on initial recognition. The difference between the discounted present value of the security deposit and the actual security deposit given to the landlords is required to be recorded as prepaid rent. This prepaid rent is added to the ROU asset in line with Ind AS 116. The interest income representing the differential between the security deposit given and the present value of the security deposit given is recorded in such a manner that the difference between rental expense and interest income nullifies itself at the end of tenure of the security deposit, as per Ind AS 109.
- 5) **Remeasurement of defined benefit plan obligations -** Under Ind AS, remeasurements i.e. actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expense on the net defined benefit liability are recognised in other comprehensive income instead of profit or loss. Under the previous GAAP, these remeasurements were forming part of the Statement of Profit and Loss for the year.
- 6) **Leases:** Under previous GAAP, a lease is classified as a finance lease or an operating lease. Operating lease payments are recognised as an operating expense in the statement of profit or loss on a straight-line basis over the lease term. Under Ind AS, a lessee applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets and recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets. At the date of transition to Ind AS, the Company applied the transitional provision and measured lease liabilities at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate at the date of transition to Ind AS. Right-of-use assets were measured at the amount equal to the lease liabilities adjusted by the amount of any prepaid or accrued lease payments.
- 7) **Fair valuation of staff loans:** Under previous GAAP, loans given to staff were recorded at carrying value. Under Ind AS, staff loans are fair valued using market rate of interest and accordingly deferred employee cost is recognised on date of initial recognition. Deferred employee cost is amortised over the contractual period of loan as an employee benefit expenses and interest income is recognised on fair value of loans.
- 8) Under previous GAAP, all incremental costs are charged off to statement of profit and loss when incurred. Under IND AS, the incremental cost of obtaining contract with customer are recognised as an assets if the entity expects to recover those costs from future revenue.
- 9) Under previous GAAP, Company follows the annual fees was recognised as an income at inception of contract. Under IND AS, the card fees have been deferred and amortised over the one year.
- 10) Consequential deferred tax on all the above adjustment are taken into consideration.

Notes to financial statements for the year ended 31st March 2021  
(Figure in Rupees in millions, unless otherwise stated)

44 Un-redeemed Reward Points :

The Company has a reward point program which allows card members to earn points based on spends through the cards that can be redeemed for cash. In addition, Company has designed a Reward & Recognition program for sourcing credit card through branches of the Holding Company. Accordingly the eligible employees of the Holding Company is rewarded with bonus points through a credit in their card accounts. The liability for rewards points outstanding as at the year end and expected to be redeemed in the future is accounted for on the basis of actuarial valuation.

Movement of provision for rewards points expenses.

Particulars	As At 31.03.2021	As At 31.03.2020
Provision at the beginning of the year	42.25	29.00
Add: Addition made during the year	139.66	59.15
Less:- Amount used during the year	100.59	45.90
Less:- Unused amounts reversed during the year	-	-
Amount at the end of the year	81.33	42.25

- 45 Interchange fees paid during the year is net of Rs. 78.68 mn on account of the input tax credit pertaining to financial year 2019-20 claimed during the year under review as per GST rules and regulations.
- 46 In respect of accounts receivables, the Company is regularly generating and dispatching customer statements on periodic interval wherever transactions or outstanding are there. In case of disputes with regard to billing, there is a process of resolution and adjustments are carried out on regular basis. Moreover, in respect of accounts payable, the Company has a process of receiving regular balance confirmation from its vendors. The balances are reconciled with the balance confirmation received and discrepancies, if any are accounted on regular basis. For the year end balances of Account Receivables, Account Payables and Loans & Advances, the management is of the opinion that adjustments, if any required through the above-mentioned process, will not have any material impact on the financials of the Company.
- 47 Previous Year's figures have been regrouped, and/ or rearranged and/ or reclassified wherever necessary to make them comparable with current year's figures.
- 48 Schedule of Balance sheet of Systemically Important Non-deposit taking Non-Banking Financial Company as required in terms of Paragraph 19 of Systemically Important Non-Deposit taking Company and Deposit taking Company (Reserve Bank) Directions, 2016
