		<p>(b) Reduce the amount re-paid when a call is exercised; and (c) Partially or fully reduce Coupon payments on the Bonds.</p>
	<p>50-i) Permanent principal write-down on PONV Trigger Event</p>	<p>The Bonds, at the option of the Reserve Bank of India, can be permanently written off upon occurrence of the trigger event, called the Point of Non-Viability Trigger ("PONV Trigger"). If a PONV Trigger (as described below) occurs, the Issuer shall:</p> <ul style="list-style-type: none">(i) notify the Trustee;(ii) cancel any Coupon which is accrued and unpaid on the Bonds as on the write-down date; and(iii) Without the need for the consent of Bondholders or the Trustee, write down the outstanding principal of the Bonds by such amount as may be prescribed by RBI ("PONV Write Down Amount") and as is otherwise required by the RBI at the relevant time. The Issuer will affect a write-down within thirty days of the PONV Write-Down Amount being determined and agreed with the RBI. <p>PONV Trigger, in respect of the Issuer or its group, means the earlier of:</p> <ul style="list-style-type: none">(i) a decision that a principal write-down, without which the Issuer or its group (as the case may be) would become non-viable, is necessary, as determined by the RBI; and(ii) the decision to make a public sector injection of capital, or equivalent support, without which the Issuer or its group (as the case may be) would have become non-viable, as determined by the RBI. <p>The PONV Trigger will be evaluated both at consolidated and solo level and breach at either level will trigger write-off.</p> <p>For this purpose, a non-viable bank will be:</p> <p>A bank which, owing to its financial and other difficulties, may no longer remain a going concern on its own in the opinion of the RBI unless appropriate measures are taken to revive its operations and thus, enable it to continue as a going concern. The difficulties faced by a bank should be such that these are likely to result in financial losses and raising the Common Equity Tier 1 Capital of the bank should be considered as the most appropriate way to prevent the bank from turning non-viable. Such measures would include a permanent write-off in combination with or without other measures as considered appropriate by the RBI.</p> <p>RBI would follow a two-stage approach to determine the non-viability of the Issuer. The Stage 1 assessment would consist of purely objective and quantifiable criteria to indicate that there is a prima facie case of the Issuer approaching non-viability and, therefore, a closer examination of the Issuer's financial situation is warranted. The Stage 2 assessment would consist of supplementary subjective criteria which, in conjunction with the Stage 1 information, would help in determining whether the Issuer is about to become non-viable. These criteria would be evaluated together and not in isolation. Once the PONV is confirmed, the next step would be to decide whether rescue of the Issuer would be through write-off alone or write-off in conjunction with a public sector injection of funds.</p> <p>The Write-off of any Common Equity Tier 1 capital shall not be required before the write-off of any Non-equity (Additional Tier 1 and Tier 2) regulatory capital instrument. The order of write-off of the Bonds shall be as specified in the order of seniority as per the</p>

Disclosure Document and any other regulatory norms as may be stipulated by the RBI from time to time.

A write-down may occur on more than one occasion.

Once the principal of the Bonds have been written down pursuant to PONV Trigger Event, the PONV Write-Down Amount will not be restored in any circumstances, including where the PONV Trigger Event has ceased to continue.

A write-down due to a PONV Trigger Event shall occur prior to any public sector injection of capital so that the capital provided by the public sector is not diluted. However, any capital infusion by Government of India into the Issuer as the promoter of the Issuer in the normal course of business may not be construed as a PONV Trigger.

The Bondholders shall not have any residual claims on the Issuer which are senior to ordinary shares of the Issuer, following a PONV Trigger and when write-off is undertaken.

If the Issuer is amalgamated with any other bank pursuant to Section 44 A of the Banking Regulation Act, 1949 (the BR Act) before the Bonds have been written down, the Bonds will become part of the Additional Tier 1 capital of the new bank emerging after the merger.

If the Issuer is amalgamated with any other bank after the Bonds have been written down pursuant to a PONV Trigger, these cannot be written up by the amalgamated bank.

If the RBI or other relevant authority decides to reconstitute the Issuer or amalgamate the Issuer with any other bank, pursuant to Section 45 of the BR Act, the Issuer will be deemed as non-viable or approaching non-viability and the PONV Trigger and pre-specified trigger as per Basel III Guidelines will be activated. Accordingly, the Bonds will be permanently written-down in full prior to any reconstitution or amalgamation.

A bank facing financial difficulties and approaching a point of non-viability shall be deemed to achieve viability if within a reasonable time in the opinion of the RBI, it will be able to come out of the present difficulties if appropriate measures are taken to revive it. The measures including augmentation of equity capital through a permanent write-off or public sector injection of funds are likely to:

- a. restore confidence of the depositors/ investors;
- b. improve rating/ creditworthiness of the bank and thereby improving its borrowing capacity and liquidity and reduce cost of funds; and
- c. augment the resource base to fund balance sheet growth in the case of fresh injection of funds.

The trigger at PONV will be evaluated both at consolidated and solo level and breach at either level will trigger write-off.

The Bonds can be written-down multiple times in case the Bank hits the PONV Trigger Level subsequent to the first write-down. The Bonds which has been written off shall not be written up.

			<p>In any case it should be noted that following writing-off of the Bonds neither the Bank, nor any other person on the Bank's behalf shall be required to compensate or provide any relief, whether absolutely or contingently, to any Bondholder or any other person claiming for or on behalf of or through such holder and all claims and demands of such persons, whether under law, contract or equity, shall stand permanently and irrevocably extinguished and terminated. Unless otherwise specified in this Disclosure Document, the write-off of any common equity shall not be required before the write-off of any of the Bonds and there is no right available to the Bondholder hereof or any other person claiming for or on behalf of or through such holder to demand or seek that any common equity be subject to prior or simultaneous write-off or that the treatment offered to holders of such common equity be also offered to the Bondholders.</p> <p>If the PONV trigger is breached and the Issuer's equity is replenished through write-off of the Bonds, such replenished amount of equity will be excluded from the total equity of the Issuer for the purpose of determining the proportion of earnings to be paid out as dividend in terms of rules laid down for maintaining the capital conservation buffer (as described in the Basel III Guidelines). However, once the common equity ratio of 8% is attained without counting the replenished equity capital, from that point onwards, the Issuer may include the replenished equity capital for all purposes.</p>
		50-ii) Temporary principal write-down on CET1 Trigger Event	<p>50-ii-a) Temporary write down</p> <p>If a CET1 Trigger Event (as described below) occurs, the Issuer shall:</p> <ul style="list-style-type: none"> (i) notify the Trustee; (ii) cancel any Coupon which is accrued and unpaid to as on the write-down date; and (iii) without the need for the consent of Bondholders or the Trustee, write down the outstanding principal of the Bonds by such amount as the Issuer may in its absolute discretion decide subject to the amount of write down not exceeding the amount which would be required to bring the CET 1 ratio to B% of RWAs (minimum CET 1 of 5.5% + capital conservation buffer of 2.5%) and in no case such amount shall be less than the amount required to immediately return the Issuer's Common Equity Tier 1 Ratio (as defined below) to above the CET1 Trigger Event Threshold (as defined below) or, if this is not possible, the full principal value of the Bonds (the "CET1 Write Down Amount"). <p>The write-down will generate Common Equity Tier 1 (CET1) under applicable Indian Accounting Standards (i.e. net of contingent liability recognised under the Indian Accounting Standards, potential tax liabilities, etc., if any).</p>

				<p>The write-down of any Common Equity Tier 1 capital shall not be required before a write-down of these Bonds. A write-down may be allowed more than once in case the Issuer hits the CET1 Trigger Event subsequent to the first write-down which was partial. Once the principal of a Bond has been written down pursuant to this Condition (Temporary write down), it may be restored in accordance with conditions laid out by RBI.</p> <p>If the Issuer is amalgamated with any other bank before the Bonds have been written down, the Bonds will become part of the Additional Tier 1 capital of the new bank emerging after the merger. If the Issuer is amalgamated with any other bank after the Bonds have been written down pursuant to a CET1 Trigger Event, the amalgamated bank can reinstate these instruments according to its discretion.</p> <p>CET1 Trigger Event means that the Issuer's or its group's Common Equity Tier 1 Ratio is at or below 6.125% of the RWA, (the "CET1 Trigger Event Threshold");</p> <p>Common Equity Tier 1 Ratio means the Common Equity Tier 1 Capital (as defined and calculated in accordance with the Basel III Guidelines) of the Issuer or its group (as the case may be) expressed as a percentage of the total risk weighted assets (as defined and calculated in accordance with the Basel III Guidelines) of the Issuer or its group (as applicable);</p> <p>If the CET1 Trigger Event Threshold is breached and the Issuer's equity is replenished through write-down of the Bonds, such replenished amount of equity will be excluded from the total equity of the Issuer for the purpose of determining the proportion of earnings to be paid out as dividend in terms of rules laid down for maintaining the capital conservation buffer (as described in the Basel III Guidelines). However, once the Common Equity Tier 1 Ratio of 8% is attained without counting the replenished equity capital, from that point onwards, the Issuer may include</p>
